Yet theology isn't just a matter of what we think. Theology is not reserved for those in the academy; it is an aspect of thought and conversation for all who live and breathe, who wrestle and fear, who hope and pray.

It is theology done with all brains and no muscle, and it imperils both our walk and our talk. Topics include faithful reason, tradition and community, and love of Scripture. It was in that context that he began work on this book. In this regard, he urges the student-reader to stretch the boundaries of the understanding to make room for the theological tensions that suspend theological ideas, often times frustrating our human desire to know in full; he challenges us to humbly make room for the mystery of God. Chapter It gave me a better appreciation for studying Theology, and it will be a book I recommend all of my students read.
