a nuclear war, Earth was uninhabitable and the only survivors were those on space stations which eventually came together to form the Ark; 97 years later on an undeterminable year the Ark is dying and prisoners under the age of 18 are sent to see if Earth is now survivable. Or perhaps instead of a starbase, it's a large exploration ship of some sort; an experimental deep space vessel with a large crew, a fleet of shuttles, and its own five-year mission of exploration.
