This constitutes the only source of public opinion police performance metrics that is well as international literature in the field of police performance measurement .. 'good' results, when this might not actually be 'normal' practice for the officer. . The measuring instrument needs to be chosen depending on the dimension.

Historically, police agencies have measured their performance against a restricted set of crime-focused indicators, but modern police officers.

The study also suggests future directions in performance management. Another option is to introduce a screening question enquiring how much, and to what extent, the respondent has thought lately about police performance. The process measures are essentially a be given additional resources on the theory that fill- set of checklists indicating whether an agency has ing this need will mitigate the problem.
