Several routine tasks are now automated, transforming many trades and eventually eliminating. But I also told him of the days where we contemplated where to bury the other person in the backyard. Suicide is a disease. This lecture seeks to debate Nelson Mandela's place in public memory. In the course of its short existence, AI has undergone many changes. It is important to note, however, that suicide is a behavior that can be repeated in a family history, across generations. Growth comes with both benefits and costs. We live in a time when everything—theories and work practices—are constantly changing.
